On 12 February 2011, an experiment on Neitronik produced by company Valcon.
Two methods were used: Real Blood cell and Vega Check.

8: 30 the blood was taken in normal condition.
8: 55 did the Vega check in normal condition.
The results Graphic # 1 and photo #1

Patient Mr. Alikov talked on the cell phone for 3 minutes, right away the two methods were done again.

9: 25 the blood was taken after talking on cell phone
9: 27 did the Vega check after talking on cell phone
The results Graphic # 2 and photo # 2

Patient Mr. Alikov placed the Neitronik on the cell phone, relaxed for 40 minutes and then talked on the cell phone for 3 minutes, right away the two methods were done again.

10: 15 the blood was taken after talking on cell phone
10: 29 did the Vega check after talking on cell phone
The results Graphic # 3 and photo #3

The results of the experiment show:

Neitronik works as a good protection for the patient's health.
Neitronik does not cause bad influence on patient's health.
Neitronik affectively protects from influence of the cell phone.

Photos and graphic are included.

Berlin, 18 February 2011
PRR

Dear Sirs and Madams,

We gave an order to Mrs. Monica Collins, a Medical Practitioner¹ from Berlin – Charlottenburg, to perform an examination of the patients' blood under the given constellation, according to the subjects' wishes.

In the results of the conducted examinations (darkfield microscopy for native-blood analysis² and a Vega Check on the patient), Mrs. Collins evaluates the efficiency of the tested object with respect to the postulated radiation effects via the mobile phones on the human body as follows:

1. Neitronik manifests good efficiency with respect to the patients' health protection.
2. Neitronik does not have any harmful effects on patients by itself.
3. Neitronik protects efficiently against negative influences (postulated radiation or another effect) during mobile phone use.

For the purposes of explanation and your own assessment of the conclusions as well as of more accurate explication of Mrs. Monica Collins's findings, please download, i.e. see the original findings that have been given to the subject.

We hope that this information is helpful, and for any additional questions, we remain at your disposal at any moment.

Kind regards,
Dr. Med. Reinhard Pragla
Physician Director

¹ In Germany, Medical Practitioner is the title of persons licensed by the state to treat in the manner and scope as prescribed under the German Law on the Healing Practice, who need not be doctors.

² Native Blood = undissolved vein or artery blood without additions.
